The government needs to get out of the free business environment. Microsoft is what every American is working for, the American dream! Stop the wining competitors of Microsoft and tell them to put their wasted efforts into their business and compete in the free business world. The handcuffs should be taken off Microsoft. Stop wasting the tax payers money. Tell Sun, Oracle and the rest of them to compete on the business platform or choose another business to pursue. I have strong competitors in my business field and I am wondering if the DOJ is going to fight my battles. Shame on the politicians using this issue for additional press time for their own personal gains. It is time to put an end to this nonsense!
